

Document Request Policy

Northgate Group — HR Policy | Version 3.1 | Effective 1 January 2026 | Owner: People Operations

1. Purpose

This policy describes the employment documents that People Operations issues on request, the procedure for requesting each one, and the turnaround time an employee can expect. It applies to all current employees. Former employees may request documents for up to 12 months after their last working day by contacting People Operations directly.

2. Documents Available

- Salary certificate: confirms job title, joining date and salary, usually for a bank, landlord or embassy.
- No objection certificate (NOC): confirms the employer has no objection to a specific activity, usually travel, a visa application or a driving licence application.
- Employment letter: confirms that the employee is currently employed, without disclosing salary.
- Experience letter: issued on or after the last working day, confirming role, dates and responsibilities.
- Payslip copies: reissued copies of previously issued payslips for a stated month or range of months.

In the employee portal, the document type field offers Salary Certificate and NOC. Requests for an employment letter, an experience letter or payslip copies are raised as a Document Request with the requirement described in the request description field, and People Operations classifies them on receipt.

3. Request Procedure

All document requests are raised in the employee portal as an HR request with the request type Document Request. The request must state which document is needed, who it is addressed to, and the purpose. Where the document will be presented to an external authority, state the authority's full name and the country.

One document per request. Bundling several documents into a single request delays all of them, because the request is only closed when every item is complete.

4. Turnaround Times

- Employment letter: two business days.
- Salary certificate: three business days.
- No objection certificate: three business days, or five business days where attestation is required.
- Payslip copies: two business days for the last 12 months, five business days for older records.
- Experience letter: five business days from the last working day.

Turnaround times are measured in business days from receipt of a complete request and exclude public holidays. Requests received during the year-end close period of 15 December to 5 January may take longer.

5. Validity and Reissue

Issued documents are dated and most external authorities treat them as valid for 30 to 90 days. Northgate Group does not backdate documents under any circumstances. If a document has expired, raise a new request rather than asking for the original to be amended.

A reissue because of an error made by People Operations is prioritised and issued within one business day. A reissue because the employee supplied incorrect details follows the standard turnaround time.

6. Third Parties and Data Protection

Documents are released to the employee, not to the third party, unless the employee has given written authorisation for direct release. People Operations will confirm the employment status of a current employee to a third party who contacts the company directly, but will not disclose salary, performance or absence information without written consent.
